

**IMPORTANT NOTE REGARDING FREE-REDUCED MEAL APPLICATIONS
FOR THE 2021-22 SCHOOL YEAR**

Parents,

The U.S. Department of Agriculture has extended the free lunch and breakfast program through the end of the 2021-22 School Year. **Please** continue to fill out the Free and Reduced Meal Application and return to the school if your family is eligible for free or reduced price meals. These applications are VERY important to insure that Norwayne schools are still eligible for this program, and for other Federal Grants such as Title I. The number of free and reduced eligible families in our district will determine our funding for next school year. We cannot report a student eligible without the application submitted to us.

A student's school fees cannot be waived if the school district has not received an application verifying the household is eligible for free meals.

If you have received a notice from the Treasurer's Office that your child(ren) are eligible for free meals due to Direct Certification, you will not need to turn in an application.

Thank You for your cooperation in returning these forms.

Sandy L. Hadsell, Treasurer
